

# Persian Tiles

West Yorkshire Spinners Colourlab DK

I designed the Persian Tiles blanket in 2015 using a tile on display at the V&A Museum in London as my inspiration. The blanket has captured the imagination of the crochet community ever since and is now available in many incarnations across the globe.

I am really pleased with this version of the blanket, which uses yarns from the West Yorkshire Spinners range of natural British wool. This version of the blanket stays true to the navy, teal and orange colours of my original design, although a few of the yarn shades are a little lighter, giving the blanket a slightly paler feel.

The quality of the pure wool gives the blanket a lovely feel and drape, and the natural fibres will provide warmth and comfort for years to come, making it a true heirloom piece.
